**Presentation of the school and workshop with
Etsuko Yasuoka - Koryu Shotokai School
on Saturday, June 29, 2019 from 13:30 until 16:30**

Shortly and unexpectedly, we received a request for a workshop with Ms. Etsuko Yasuoka, a representative of Koryu-Shotokai, a still unknown school to Ikebana International Zurich. Ms. Yasuoka has been living in London for a long time, teaching in and outside of Japan since 1975, will be visiting Europe in the coming weeks. She will introduce her school and show us traditional and modern arrangements and work with a special holder.

True to our motto "Friendship through flowers", we would like to welcome Ms. Yasuoka warmly to tell us about her school and their forms. Despite the short-term nature, we very much hope that many of us will find time and desire to discover new things together. If members and / or guests from Ikebana International Basel and Geneva can join, it is a great pleasure for us.

The afternoon will be held in English and where necessary, will be explained and translated in German.

Best wishes for today,
Martha Bachmann
